## Endodontics

**Dr Fahad Ali – Specialist Interest in Endodontics**

We are delighted to welcome Dr Fahad Ali to our team as a visiting dentist. Dr Ali is a general dentist with a special interest in endodontics (root canal treatment), providing high-quality, patient-focused care using advanced techniques to help save and restore natural teeth.

Dr Ali's gentle and precise approach helps make root canal treatment more comfortable for patients while delivering excellent clinical outcomes. If you are experiencing tooth pain or have been advised you may need root canal treatment, book a consultation with our team today to benefit from specialist-level care in a trusted practice environment.

## Spring Offers

Spring is here, and we're excited to share our latest special offers to keep your whole family smiling!

### Easter Kids Offer

This Easter, we're making family visits even more rewarding:

- FREE child check-up when attending with a paying adult check-up

OR

- £5 children's check-up, which includes an oral care kit and a special goodie bag (over easter break)

It's the perfect time to get your little ones seen and set them up with healthy habits for the year ahead!

### Summer Smile Whitening Special

Get ready for holidays, weddings, and summer photos with a brighter, more confident smile. Take advantage of our Summer Smile Whitening offer and enjoy professional whitening at a special seasonal rate. Speak to our team to learn more.

### Free Pregnancy Check-Up

We're also offering a FREE dental check-up for pregnant women when booked alongside a paid hygiene appointment. Maintaining good oral health during pregnancy is so important for both mum and baby, and we're here to support you.

Appointments are limited, so we recommend booking early to avoid disappointment.

We look forward to welcoming you soon!

## New Services COMING SOON

## Guided Biofilm Therapy

### What is GBT?

GBT is a pain-free, gentle, and highly effective dental cleaning system that targets biofilm, stains, and early signs of gum disease. Using state-of-the-art technology, our team can safely remove harmful bacteria and leave your mouth feeling fresh and rejuvenated.

### Benefits of GBT

- Painless and minimally invasive
- Reduces plaque and biofilm build-up
- Polishes teeth to remove stains and improve aesthetics
- Promotes healthier gums and fresh breath
- Ideal for patients with braces, implants, or sensitive teeth

### Why Choose GBT at Our Practice?

Our skilled team uses GBT to provide a customized cleaning experience, tailored to your oral health needs. It's safe, effective, and designed to help you maintain a brighter, healthier smile long-term.

### Book Your GBT Appointment Today!

Give your teeth the care they deserve! Experience the future of dental hygiene with GBT.
